2 Besides this, the proposal of Mr Larmour to instal electric or gas lights at the Memorial has been approved by H. H. as intimated by the Huzur Secretary in his no 4250 & 20-2-18. Money will have to be found for this, as well.

3 Only about Rs 2000 is left out of the current year's State Grant and still there are several urgent works of repairs awaiting sanction.

4 As Mr. Larmour has been informed already that the works proposed by him may be put in hand and completed at an early date; and that necessary funds would be provided, it is subd for orders that, if approved, ~~the~~ the Financial Secretary may be consulted in the matter.

5 G O no. 2836-43/Mug 568-15-29-6-16 sanctioning an estimate for Rs 22,542 for the improvement of the Ghat attached to the Memorial is also put up. The cost was directed to be met from the accumulated funds at the credit of the Memorial temple

that the balance required to meet the Cost of repairing the institution will be met from the State grant. I was under the impression that the estimate will be only for repairs and that the cost will not exceed Rs 6000 the amount understood by Mr Larmour to be available for the work. Deducting the surplus at the Credit of the institution a sum of about Rs 3000 alone would have been required to make good the Cost of repairs. Even now the Cost of repairs comes up to only Rs 5300 to which has been added a number of new works.

There is a sum of Rs 2817 at the Credit of the institution on 1st July 1918 out of which a sum of Rs 2007 can be used for this work. The whole amount is not proposed for abstraction as electric installation has been recently sanctioned for which funds will have to be provided, the same not having been included in the present estimate. It does not seem feasible to find the balance of Rs 11000 still necessary from the surpluses of other Govt charitable institutions, from which as much as Rs 15000 was found recently

to provide funds for the extension of the post. The state grant for construction and repairs is only Rs 1,000 annually and there is very large demand for grants for the repair of institutions within the state. It will be a set-back to make this grant wholly available for the Calcutta works. I have therefore suggested, subject to approval, an additional state grant for this purpose. This amount has been included in the next year's State budget proposed for Dept.

It is not likely that there would be a call for immediate appropriation. There is already the extension estimate for which funds have been made available and which has not been completely worked out. The present claim is of the nature of supplemental estimate and it would be months before there would be a call for actual ~~appropriation~~ payment.

D.o 1666 Encl Six & Two Estimates

12th February 1918.
13

Dear Mr. Hiriyannaiya,

Mr. F.A. Larmour of Calcutta has submitted proposals for the repairs and improvements to the Mysore Memorial Temple at Kalighat. In view of the fact that the improvements suggested by him would add greatly to the appearance and enhance the usefulness of the temple and surroundings, the proposals have met with His Highness's approval. The Estimates received from him for the various works amounting to Rs.12,222/- are herewith enclosed. Two other items have to be added to these viz., Rs.585/- being the amount already spent by Mr. Larmour for raising the entire grounds of the Memorial and Rs.200/- for certain alterations to its water supply. The total amount now required by Mr. Larmour will therefore come to Rs.13,007/-.

The Joint Secretary to the Government Muzrai Department, who was addressed in the matter wrote to say, in his D.O. letter No.1526/Muz. 291-17-5 dated 4th January 1918 that the balance at the credit of the temple on the 1st of July 1917 was only Rs.2,817 and that if a larger sum was required for improving the temple and grounds, the requisite amount would be found from the annual State Grant for Muzrai works.

I am directed, under these circumstances, to request you to kindly arrange, with the approval of the Dewan, for necessary funds being placed at the disposal of Mr. Larmour, for the execution of the various works detailed in the estimates.

Meanwhile, Mr. Larmour has been informed that necessary funds will be provided and that all the works proposed by him may be put in hand and completed at an early date.

Copies of correspondence relating to the subject are

sent herewith for ready reference.

Yours sincerely,

Mary M. Smale

Dear Mr. Mirza,

1. Since I took charge of the Memorial in 1906 nothing has been done in the way of repairs and we found that the building wants some attention. Mr. Brown the firm's Chief Engineer has since my visit been to the Memorial and is going to send me an estimate for doing the renovation and repairs.

2. Every year during the rains the grounds of the Memorial become flooded and it has long been my wish to raise the ground to the same level as the ground on the South side of our Memorial the plot now known as "The Mysore Gardens". The building of the Ghat extension has given me the opportunity I wanted. I had an interview with Mr. Sedgley and he has agreed to give me the soil excavated free of cost up to 14000 cubic feet though it can be sold at 2/- per hundred feet.

3. This enables me to raise the whole of the grounds six inches and I have arranged to have this done at a cost of about Rs.500/-. Messrs. Martin & Co's Engineer has kindly undertaken to see to the levels. The whole of the ground is to be turned over and new fine grass sown. The work is already progressing.

4. The inner room of the temple where the Alter stands is a constant eyesore as the walls are saturated with saltpetre and anything we do there only lasts in good condition for a few months. I therefore propose, (if my funds will run to it) to have the North East and West Walls lined with marble or white tiles which will make the thing permanent.

5. In order to complete the Ghat in every respect it is necessary to have some sort of pavilion on the South side, which is to be reserved for Women, where they can dress out of sight of

the "mere man". Messrs. Martin & Co., are sending me plan and elevation of this and in the meantime I have seen the Chairman of the Municipality Mr.C.F. Payne, who says there will be no objection to our building this and we can anticipate sanction.

6. I do not propose to ask for any special grant from the Muzrai Department for these works. There is a sum of Rs.600/- a year set aside for "repairs and maintenance" so that "my trust" has Rs.3000/- standing to its credit from 1908 to 1917 and it is out of these funds I propose to do this special work.

7. The repairs to the building, the marble or tile lining Item 4 and the raising of the level of the grounds I can legitimately pay for out of the repairs and maintenance fund, but the pavilion being new work some question may afterwards be raised as to the correctness of my action in using this money for new work. Will you therefore kindly lay this letter before His Highness and ask his sanction to, and approval of my suggestions.

Dear Mr. Mirza,

In going through Mr. Larmour's letter dated 13th December 1917, I note that he is under the impression that a sum of Rs.6000/- is available at the credit of the Memorial Temple, being the accumulation of the annual allotment of Rs.600/- for repairs and maintenance which he proposes to utilize for effectin certain improvements in the building. A large portion of this accumulation has, however, been utilized in providing funds for the present extension work and the balance at the credit of the temple on 1st July 1917 was only Rs.2,817/=. If, however, a larger sum should be required for placing the temple in through repairs, the requisite amount will be found from the annual State Grant for Muzrai works.
